# Breathable leather upper

Natural leather provides a high degree of wearer comfort combined with durability in versatile applications.

# Steel midsole

Puncture resistant steel midsoles are made from stainless or coated steel and prevent sharp objects from penetating the outsole.

Antistatic

**Oil & fuel resistant** The outsole is resistant against oil and fuel.

Antistatic footwear prevents

charges and ensures that they

build-up of static electrical

are discharged effectively. Volume resistance between 100 KiloOhm and 1 GigaOhm

#### Steel toecap

**S**3

Robust metal support to protect the feet of the wearer against falling or rolling objects.

S3 safety shoes are suitable for work in an environment with high humidity and presence of oil or hydrocarbons. These shoes also protect against perforation risk of the sole, and foot crushing.
